 Colourfast dope (melt) dyed
 UV additive for resistance against exposure to sunlight equivalent to 5000 hrs Xenotest 1200

Plastic buckle (side-release opening)

Material: Polyamide 66
 Colour: Black, White or custom

Metal hardware for adjustment locking device and slider

Material: Steel for black hardware, SS 304 for nickel plated hardware
 Type: Die-punched, de-burred
 Corrosion protection: Zinc plated
 Colour: Corrosion resistant electrodeposited black, or nickel plated

Snap Buttons

Material: Brass
 Colour: Black, or nickel plated

Hook and loop tape

20 mm wide nylon

Eyelets

Quantity: 23 pairs in Large, 20 pairs in Medium, 17 pairs in Small

Material: Brass
 Type: Double Eyelet
 Colour: Black, or nickel plated

Weight of complete belt

Size Large: 330 gm
 Size Medium: 310 gm
 Size Small: 275 gm

Label

Belt with stitched label for size and other information

Packing

Each belt individually shrink packed with colour coded size label, 50 belts per carton

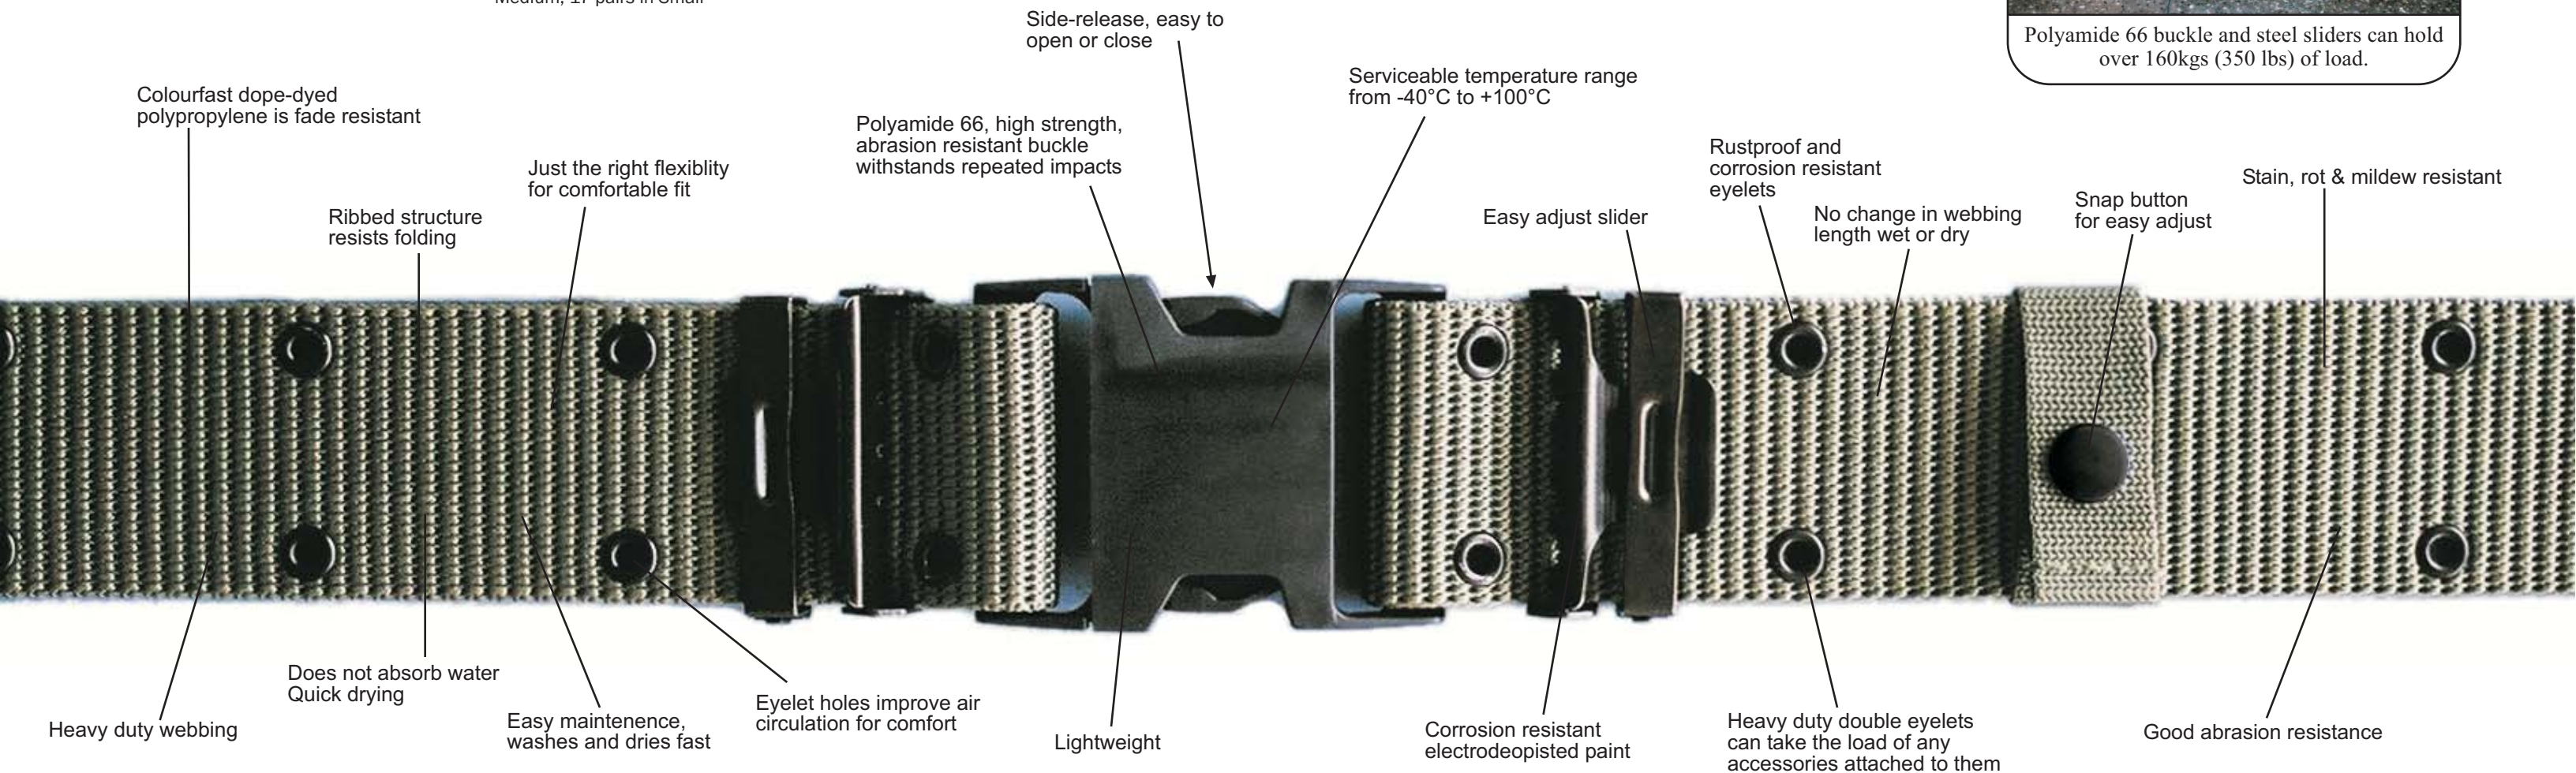

Belt Size Recommendation:

Waist 24" to 34" ----- Small
 Waist 34" to 42" ----- Medium
 Waist 42" to 50" ----- Large

Standard colour range:

Polyamide 66 buckle and steel sliders can hold over 160kgs (350 lbs) of load.

Colourfast dope-dyed polypropylene is fade resistant

Ribbed structure resists folding

Just the right flexibility for comfortable fit

Polyamide 66, high strength, abrasion resistant buckle withstands repeated impacts

Serviceable temperature range from -40°C to +100°C

Easy adjust slider

Rustproof and corrosion resistant eyelets

No change in webbing length wet or dry

Snap button for easy adjust

Stain, rot & mildew resistant

Heavy duty webbing

Does not absorb water Quick drying

Easy maintenance, washes and dries fast

Eyelet holes improve air circulation for comfort

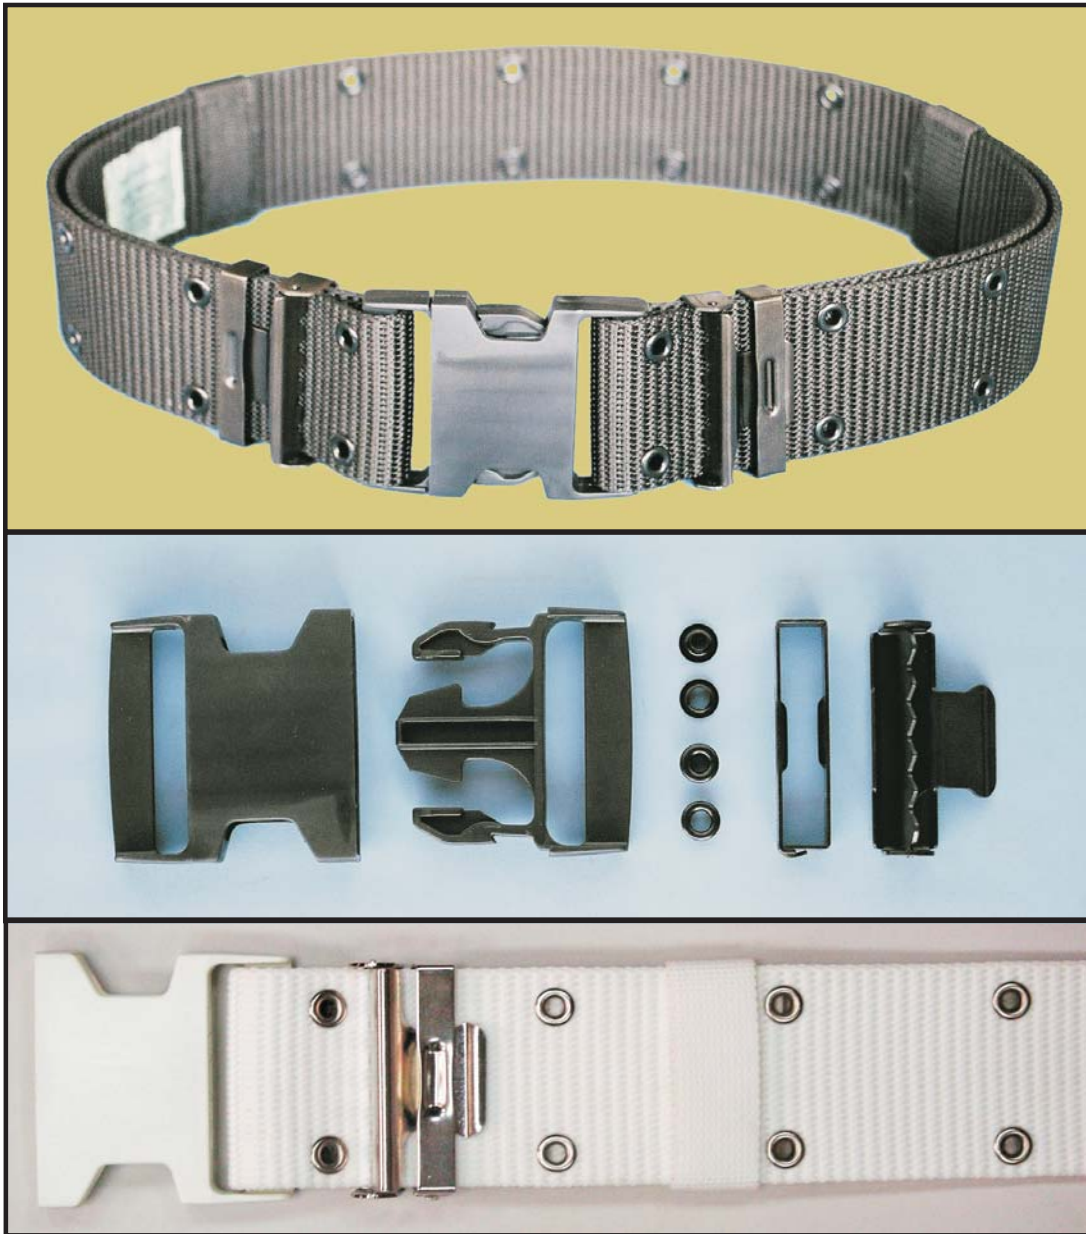

Lightweight

Corrosion resistant electrodeposited paint

Heavy duty double eyelets can take the load of any accessories attached to them

Good abrasion resistance

Side-release, easy to open or close
